

Binding Strips and Yardage

To use this chart, determine the perimeter of your quilt. In the case of a rectangular quilt., add the measure of the top, the right side, the bottom and the left side.

Find the perimeter of the quilt on the chart, following across you'll see the number of strips needed for your binding, and the amount of yardage for various widths of biding strips.

Strips and yardage is also included for binding if using "Susie's Magic Binding." Susie's Magic Binding is a method of binding completely by machine. You can find a link to the instructions in the library in the "Quilting and Finishing" Department.
